

Services and APIs

Third-party services, pricing, GDPR posture

Third-party services the platform will use, with role, current pricing posture, and EU/GDPR considerations. Costs are estimates for a Romania-first launch and should be refined before committing.

Live from foundation phase or early MVP

Service	Role	Free tier	Starting paid tier	EU / GDPR
Vercel	Web hosting, edge CDN	Hobby (sufficient for foundation)	Pro ~\$20/mo	EU regions available; DPA on Pro
Supabase	Postgres + Auth + Storage + Realtime	500MB DB, 1GB storage, 50k MAU	Pro ~\$25/mo	EU regions; DPA available
Resend	Transactional email	3k emails/mo, 100/day	\$20/mo for 50k	EU region; DPA available
Cloudflare	DNS, optional CDN / R2 storage	Generous	Pay-as-you-go	Strong DPA
Sentry	Error monitoring	5k events/mo	\$26/mo for 50k	EU region; DPA available
PostHog or Plausible	Product analytics	PostHog Cloud EU: 1M events/mo	\$0 – ~\$50/mo at small scale	EU-hosted by default
Mapbox	Geocoding, optional map tiles	50k tile loads + 100k geocodes/mo	Pay-as-you-go	Standard DPA

To pick when concept-lock happens

Item	Notes
Domain registrar (Cloudflare Registrar or Namecheap)	Once the final product name is chosen
Brand assets host	Logo, favicons, social previews — Cloudflare or Supabase Storage

Idea catalogue (not committed)

Service	Role	Trigger to add
Stripe Connect	Marketplace payments + Seller KYC	When in-app transactions go live
Twilio or Vonage	SMS / phone OTP	When phone verification ships
OneSignal or Firebase Cloud Messaging	Push notifications	When mobile launches
Algolia or Meilisearch	Hosted search	When Postgres FTS scaling becomes a real concern
Cloudflare R2 + Images	Image hosting at scale	When egress / transform costs on Supabase Storage become uncomfortable
Linear / Notion	Internal project management	Once team grows past two

Approximate monthly cost

Free during foundation phase — every service above offers a free tier that covers pre-launch usage.

Once live, paid baseline:

- Vercel Pro: \$20
- Supabase Pro: \$25
- Resend: \$20 (or free until volume justifies)
- Sentry: free → \$26 once events climb
- Domain: ~\$1/mo amortised

Floor at small launch: ~\$45 – \$90/mo depending on which paid tiers are activated.

Stripe Connect, when enabled, adds ~2.9% + €0.25 per transaction (rates per Stripe's EU pricing at the time of writing — verify before committing).

GDPR-specific posture

- All services above offer Data Processing Agreements; sign before processing real user data.

- Hosting region: pick EU regions on Vercel (Frankfurt), Supabase (Frankfurt or Ireland), Resend (EU), Sentry (EU).
- Cookie consent banner required before non-essential analytics fire.
- User-facing privacy policy and terms of service drafted before public launch.
- Right-to-erasure: cascading delete must be implementable across all stored data, including third-party copies (Sentry breadcrumbs, PostHog event history) where applicable.
